

DESCRIPTION

Mains Voltage (240v) must only be installed by a licensed electrician and meet all local regulatory requirements. Ensure mains voltage is switched off.

- A. Loosen the side screws to remove mounting plate from canopy.
- B. Use suitable fixings to mount liner plate to surface.
- C. Connect to main power using connectors provided.
- D. Push the fitting onto the wall and tighten side screws. Install G9 lightbulb, rubber washer and chosen glass.
